

Giken Sakata (S) Limited

Ver.8.0 (2026)

About The Group

2,500+ Employee strength (250 Quality/Engineers)

Total **9** Manufacturing facilities over **Singapore, Indonesia and China**

ISO 9001 : 2015
(General Quality Management)

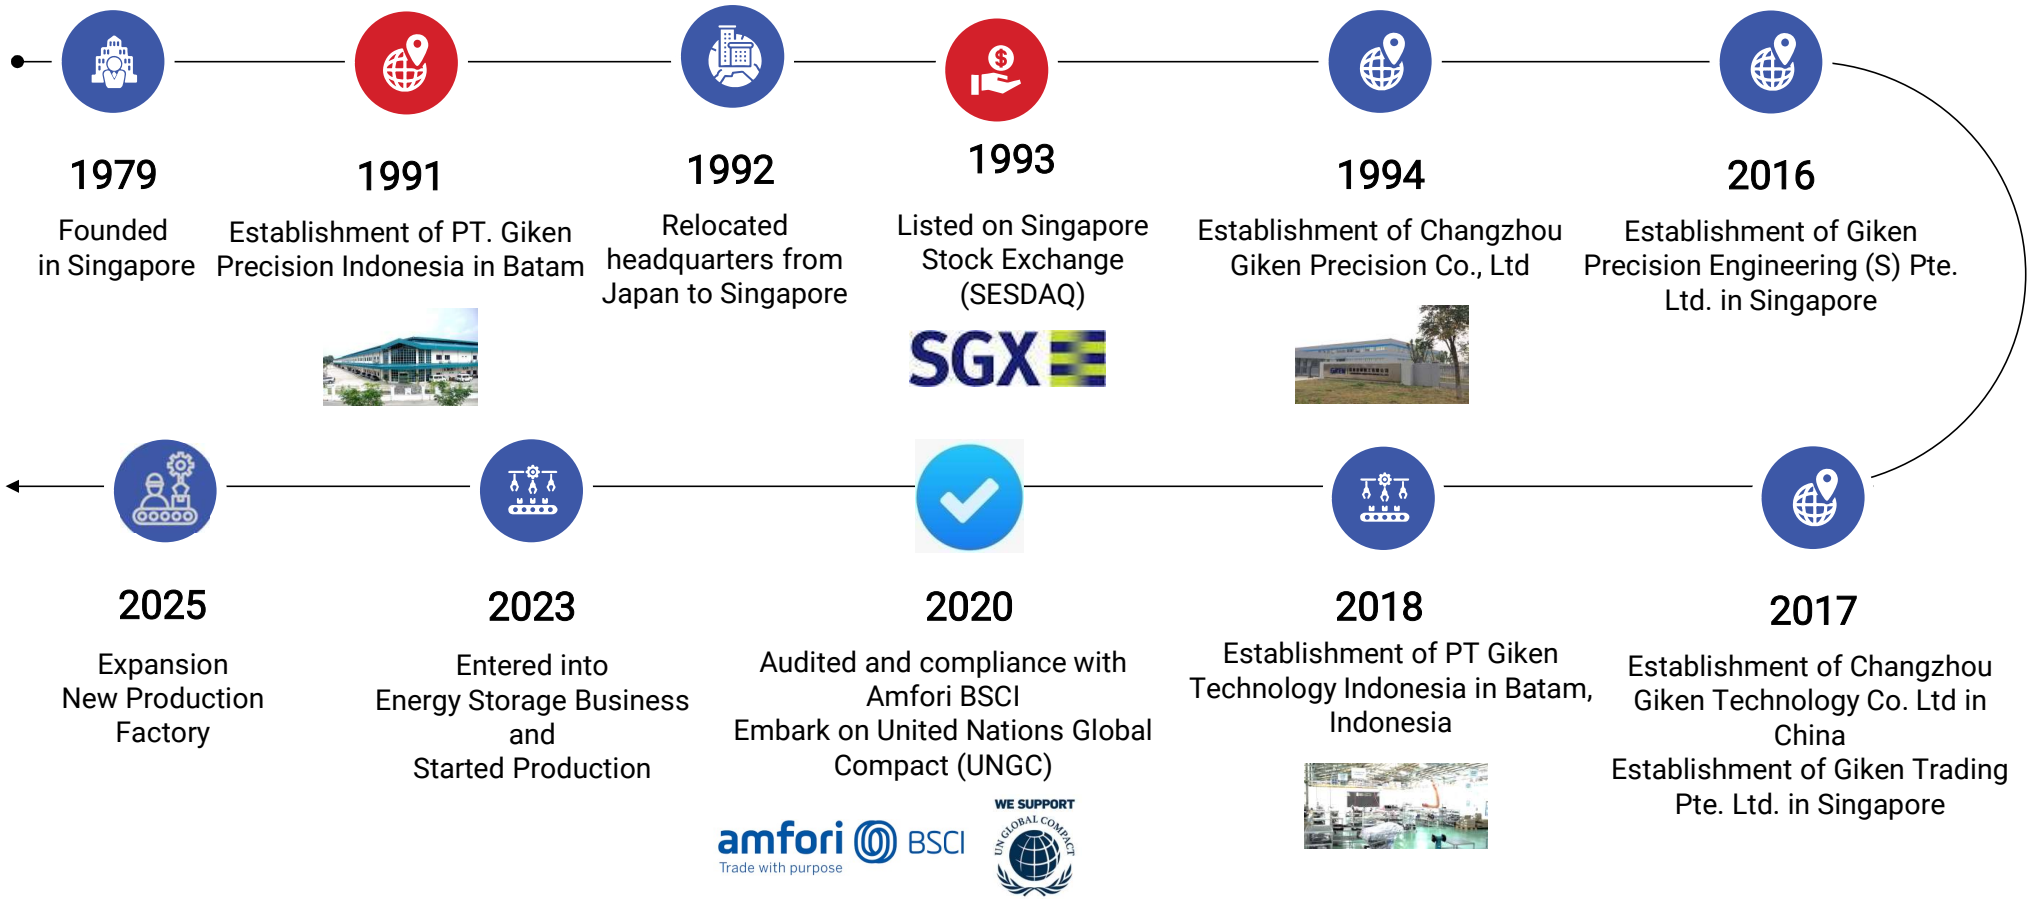

ISO 14001 : 2015
(Environment Management)

ISO 13485 : 2016
(Medical Quality Management)

IATF 16949 : 2016
(Automotive Quality Management)

KEY MILESTONES

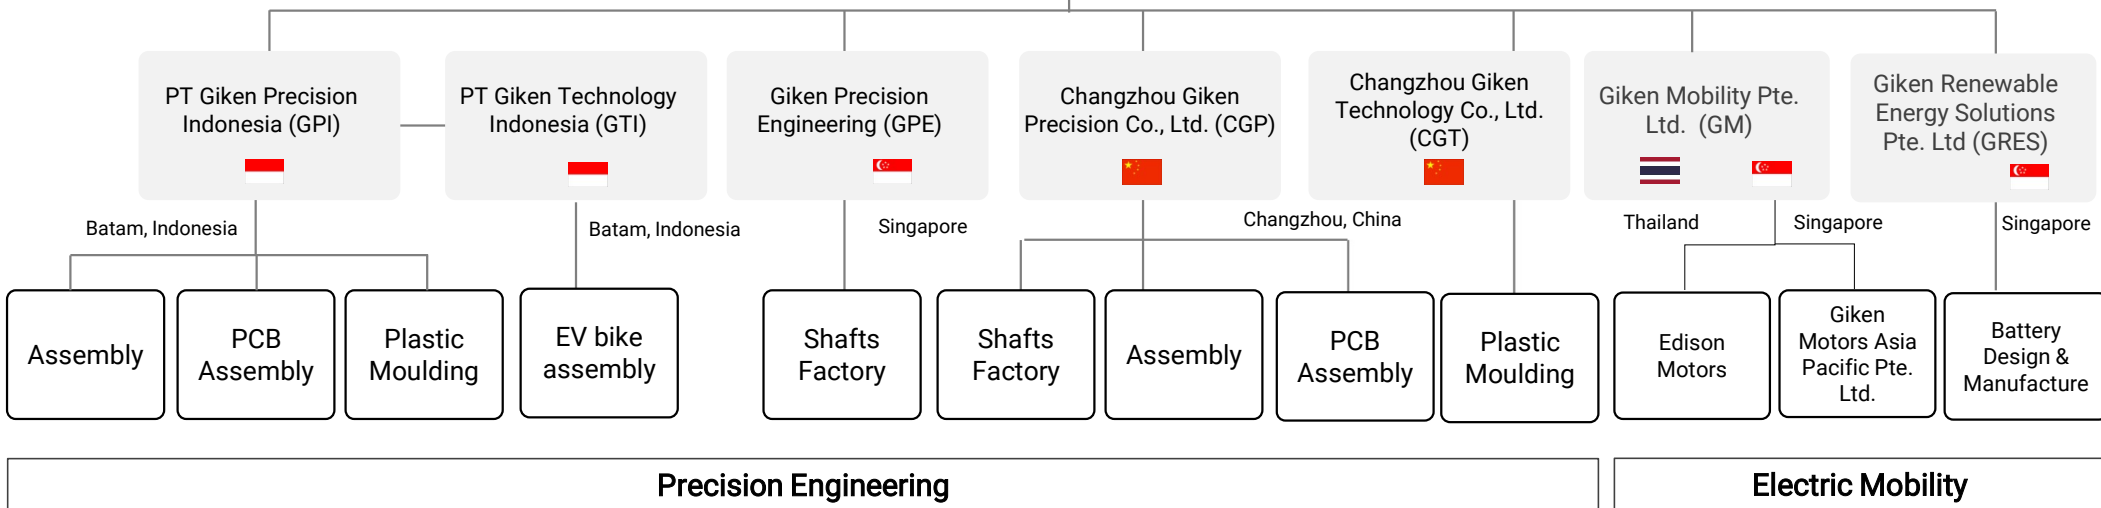

GROUP STRUCTURE

GIKEN

Giken Sakata (S) Limited

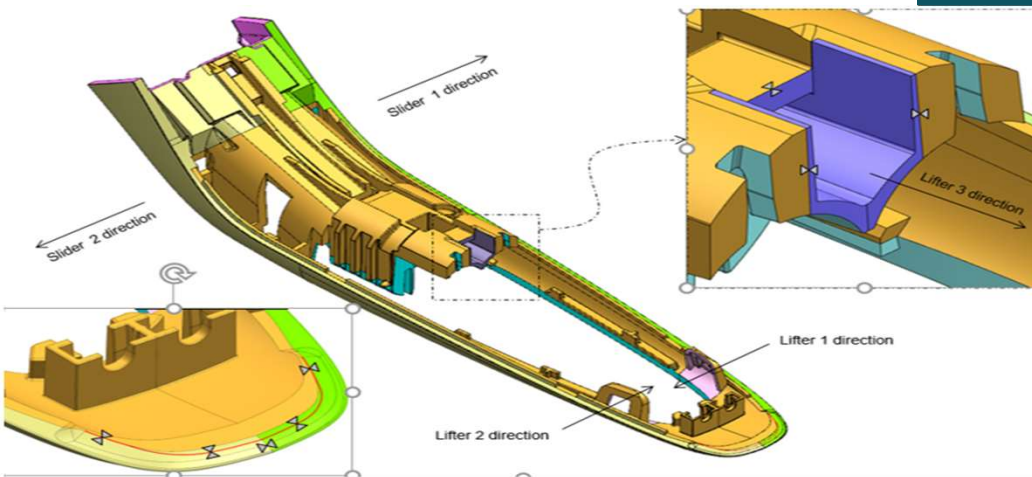

Company Missions

- *To satisfy the diverse needs of our customers by providing top-notch-quality, cost-effective products and services, complemented by timely delivery and good after-sales services.*
- *To develop solid strategic business alliances with our customers, suppliers and associates.*

Core Competency

- ✓ **Design & Development**
- ✓ **Plastic Injection Molding**
- ✓ **Printed Circuit Board Assembly**
- ✓ **Precision Shaft & Machining**
- ✓ **Complete Assembly**

Design & Development

GIKEN **Panasonic**

GIKEN

Product Design Capabilities

Product design solution

Industrial design and 3D prototype

Mechanical, electronic and software design

Functional prototype

Development Skills

Process FMEA

Design for manufacturing (DFM)

Tooling die DFM

Injection tooling/Jig & Fixture design and fabrication

EB run and pre-production run

Quality validation

PCBA prototyping

Partnership

Partnered with Panasonic (Global Product

Development Centre) in Singapore for ODM products

Plastic Injection Molding

GIKEN

Plastic Injection Machine

Sodick/Nissei/Sumitomo

Total 100+ units of machines

Range from 7T to 530T

Class 100,000 Cleanroom

32 units of electric machines

Mainly for medical products

Tool Room

In-house tool design and fabrication

Facilities Location

Batam, Indonesia

Changzhou, China

Printed Circuit Board Assembly

GIKEN

Surface Mount Technology

Total 23 SMT lines

Back End Inspection

AOI, ICT, FCT, X-RAY, reliability and aging

Low Pressure Molding

Encapsulate and protect electronic components from moisture, dust and shock

Facilities Location

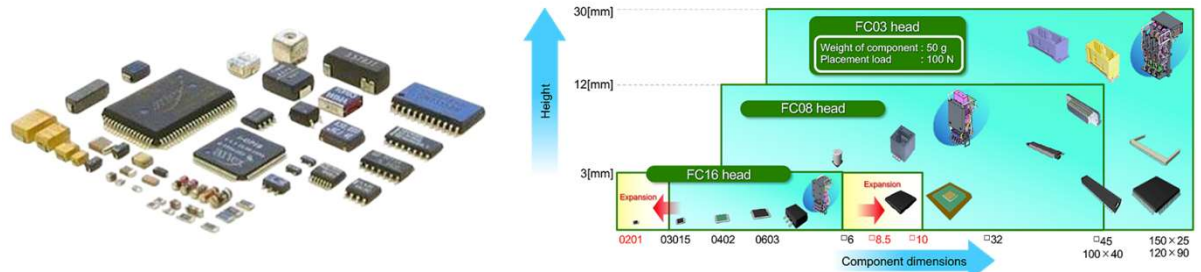

*Batam, Indonesia
Changzhou, China*

Surface Mount Technology

Total SMT : 23 SMT Lines
Mounting Capacity : 1.08 Billions points/Month

Mounting Accuracy : 0201(mm) to 30mm height Component

Screen Printer :

- GKG
- Samsung
- Deck

SPI :

- Panasonic 2D
- Jutze 3D

Moulder :

- Panasonic NPM-W2
- Panasonic NPM-D3A
- Panasonic NPM-TT2

AOI :

- Jutze 2D

Reflow Oven :

- Heller – 8 Zones
- Heller – 12 Zones
- JTE – 10 Zones

AOI :

- Jutze 2D

Auto Insertion and Manual Insertion Process

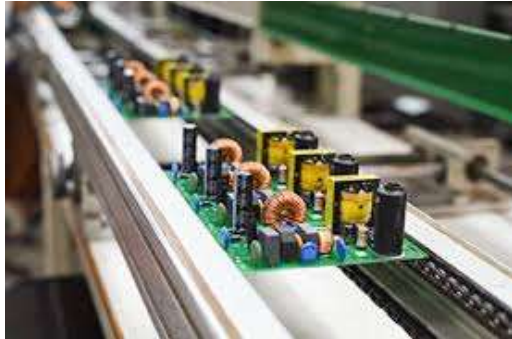

Axial (Insert IST-4800D)
1 unit

Radial (Insert IST-3800D)
2 unit

Auto Insertion Machine Capacity :
•Radial 10M points / Month
•Axial 5M Points/ Month

Wave Solder Machine Brand :

- Senju
- Tamura
- JT 450
- JT 350

6 Manual Insert Line

Tester and Equipments

Air Leakage Tester

Air leak testers judge leaks by pressurizing the inside (or outside) of sealed work by air and measuring the pressure change.

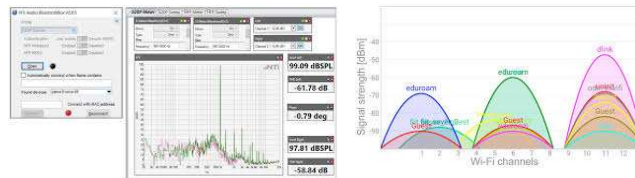

Ultrasonic Welding

Ultrasonic welding is to generate 20KHz (or 15KHz) high-voltage, high-frequency signal from the generator.

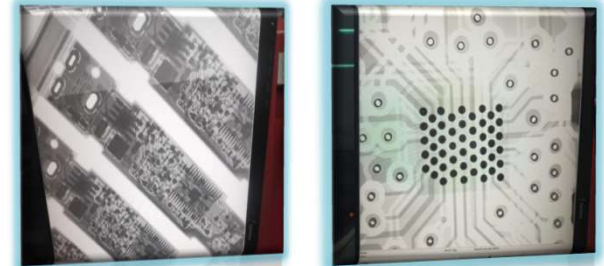

Bluetooth and WIFI Checker

It supports Basic Rate (BR), Enhanced Data Rate (EDR) and Bluetooth low energy (BLE) measurement of transmit power, frequency, modulation, and receiver sensitivity required by Bluetooth RF test specification.

X-Ray

Our most advanced real-time x-ray inspection systems, it can be widely used in Non-destructive analysis of semiconductor, SMT, and electric component quality checking.

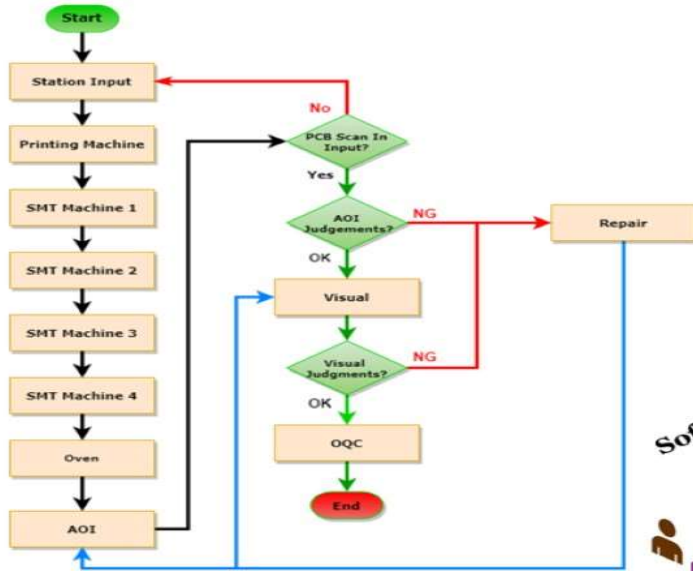

Ingress Protection / IPX4

An IPX4 rated product is protected from water splashes from any angle.

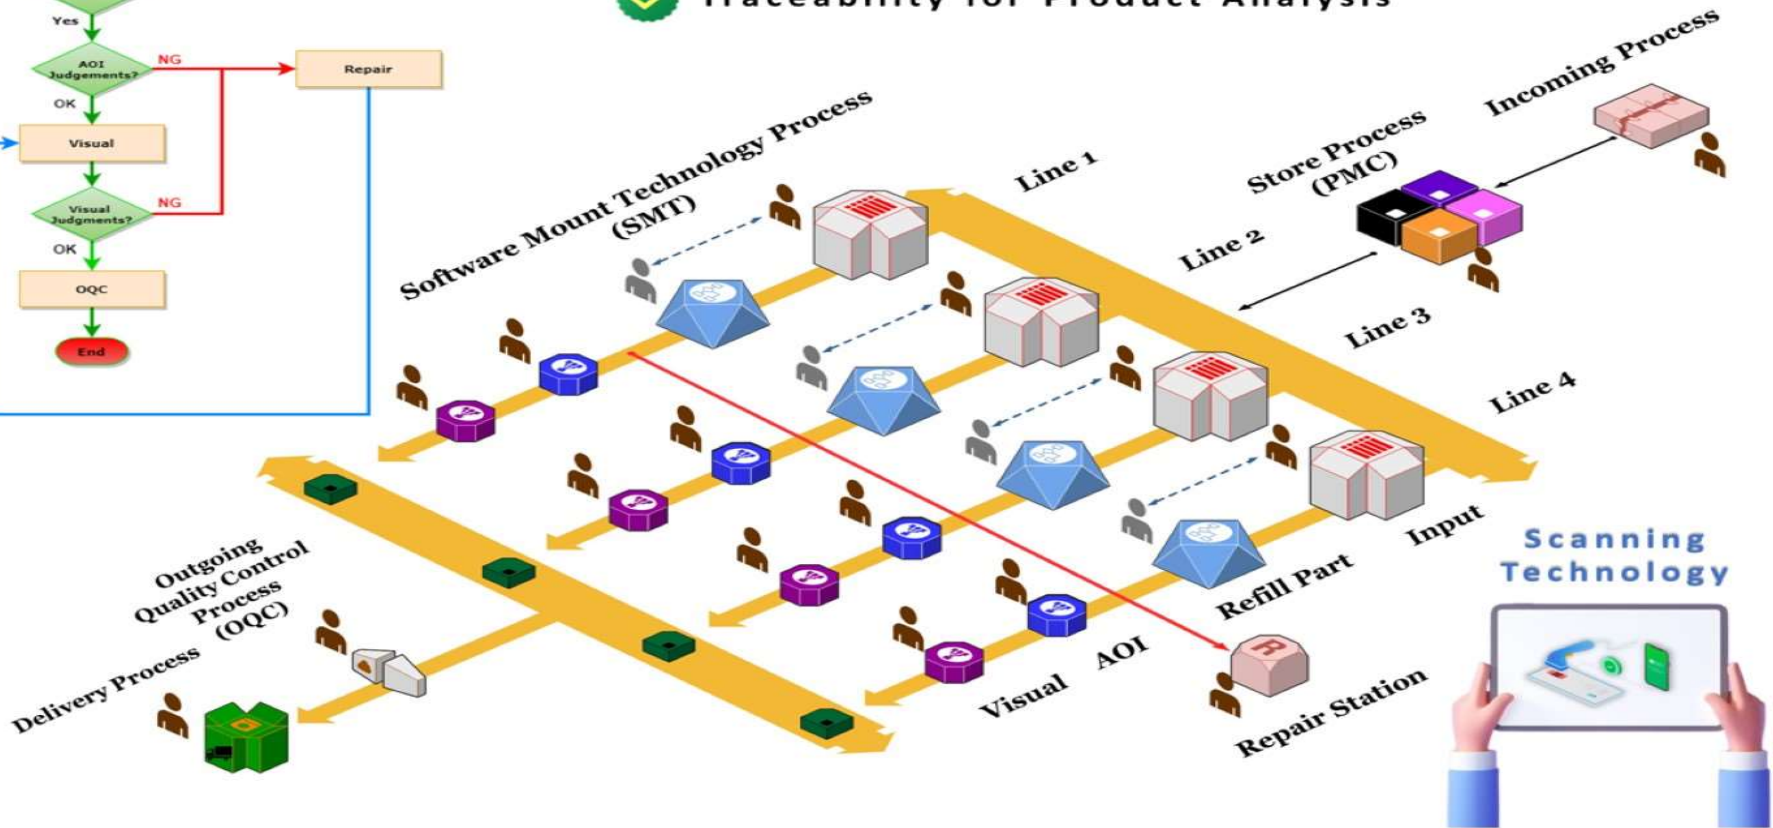

*Water Resistance Test

PRODUCT TRACEABILITY SYSTEM

- ✓ Traceability for Product History
- ✓ Traceability for Product Quality
- ✓ Traceability for Product Analysis

PRODUCT TRACEABILITY SYSTEM

Complete Assembly

GIKEN

Capabilities

Amass a wealth of product assembly capabilities serving different customers in multiple industries

Parts checking, quality control, packaging, labelling and distribution

Supply Chain Management

In both Singapore & China office

ASEAN Trade Agreement

Meet Rule of Origin requirement

Reduce or Zero Import Duty Tax from ASEAN Countries to Other Countries

Product

Laptop, Medical Equipment, Game Console, Remote Controls, Audio Video Device, DC Motor, Optical Drive, Automotive, Home Appliances and etc

Facilities Location

Batam, Indonesia

Changzhou, China

Sub & Main Assy Line for Ice Maker

Portable Power Station & Solar Panel

Automotive

GIKEN

V6 Tiguan PCBA
(Project Model Name)

Ford Bronco – Daughter PCBA
(Project Model Name)

Automotive

TAKATA CORPORATION (JOYSON SAFETY SYSTEMS)

- Components for Air bag Initiator (average 1M pcs per month for 6 years)

PIONEER

- Car audio mechanism (completed 5M sets in 4 years)

Components in the Initiator

Game Console

SEGA

- SEGA SATURN
- DREAMCAST (Completed 1.8M sets)

NINTENDO

- WII
- WII U (Completed 6M sets)

Complete assembly

MICROSOFT

- XBOX (Completed 1.5M sets)

Drive assembly

BD OPU (Optical Pick Up Unit) assembly

PHILIPS Consumer Products

Male Grooming

Garment Care

Oral Health Care

PHILIPS

Cash Recognition System

Pachinko Machine

- In-house production for plastic parts and PCBA.
- Total produced about 500k complete sets for Matsushita Electronic Components Co. (MACO)
- Produced cash recognition machine used for Japan entertainment markets.

Electric Mobility & Battery Packing

GIKEN

Electric Mobility

- Research, Ideation, Engineering, Prototyping and Manufacturing of 2-wheelers vehicle.

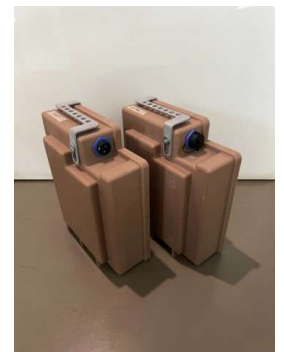

Battery Packing

- Partner with Panasonic battery to assembly battery packs for various customers

Panasonic

**Powered by Panasonic Battery*

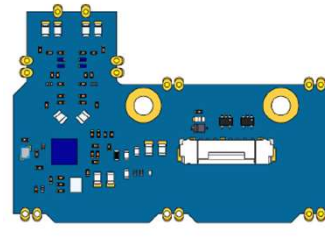

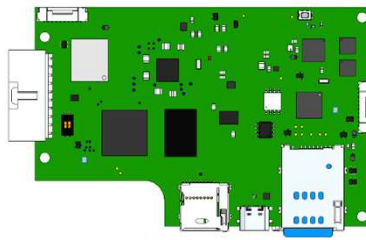

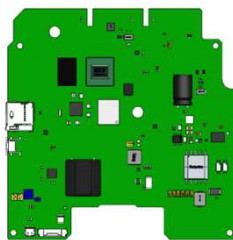

Automated Fare Collection Devices and IoT Technology

AFC Devices

- Contactless reader
- High security Data

Tree Tilt Sensor IoT System

- IoT and Sensor Technologies for wireless tree-tilt
- Monitor and pre-empt signs of imminent tree fall

Automotive

Truck Lights (Assembly)

Cam Shafts for Diesel Engine

Others

Medical Product

Olympus Surgical Technologies Europe & Aomori Olympus

- Light Guide Cable
- Video Cable
- Accessories

OLYMPUS

JMS

- Disposable plastic parts
(IV transfusion parts, blood bag accessories and etc)

**JMS**

Medical Product

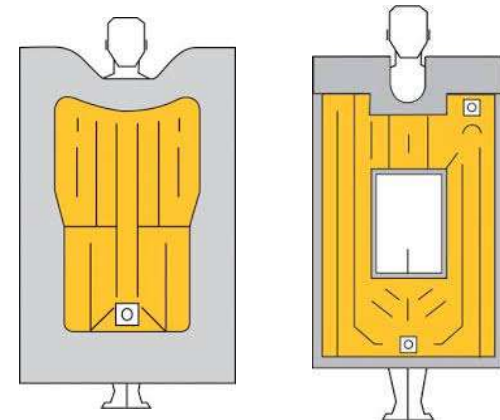

Medicomp Reactdx

- Cardiac Monitoring
- Battery Charger

Celsius Medical

- CALIMA Forced Air Warming System

New Expansion @ Batam, Indonesia

Total Land Size
78,000m²

E1

- Total built up 10,940m²
- Level 1 – 6,480m²
- Level 2 - 4,460m²

A7

- Total built up 7,736m²
- Level 1 – 3,868m²
- Level 2 – 3,868m²

A10

- Total built up 4,338m²
- Level 1 – 4,338m²

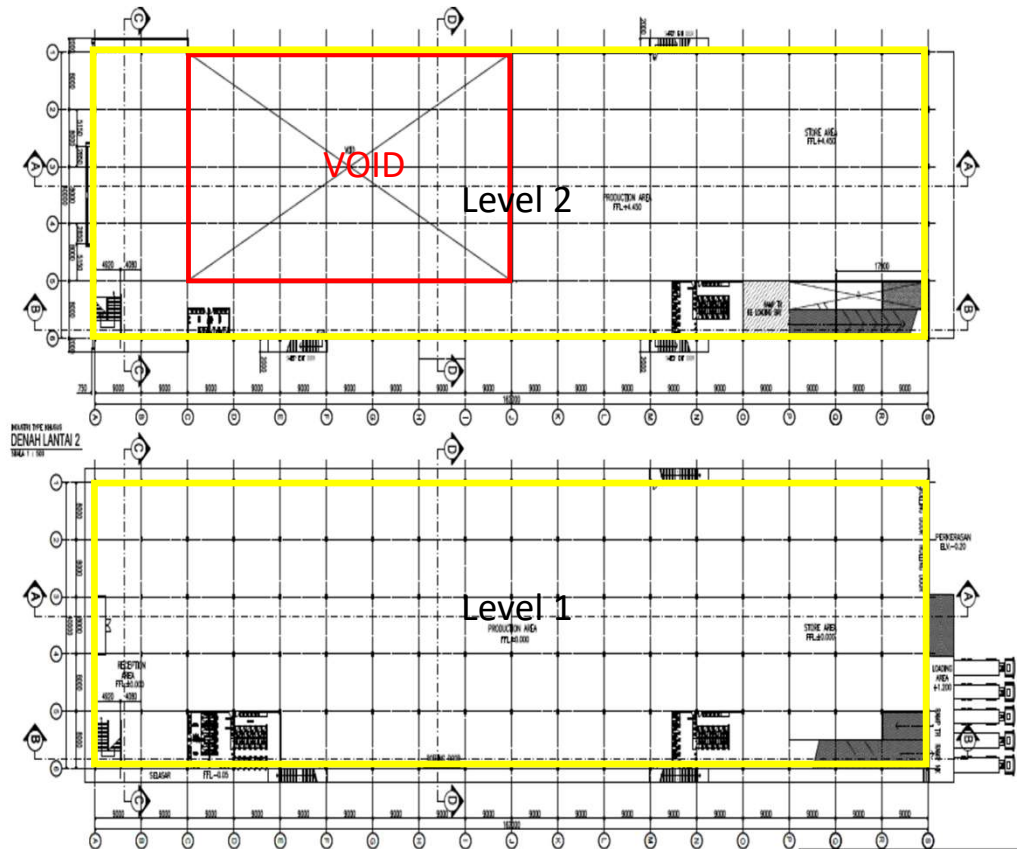

G3

- Total built up 2,916m²
- Level 1 – 2,916m²

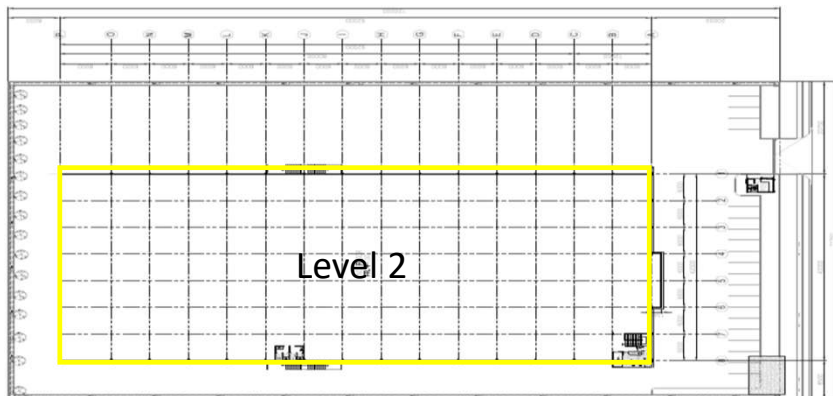

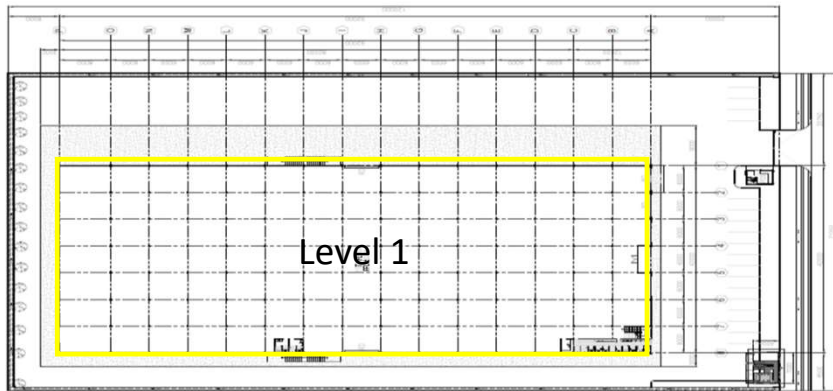

G3A

- Total built up 2,916m²
- Level 1 – 2,916m²

E1 Layout (Solar Panel Production)

A7 Layout (Portable Power Station Production)

Cell Sorter

Assembly Line

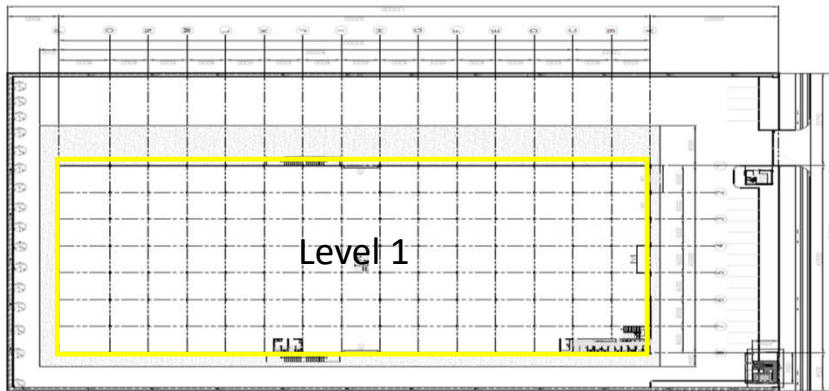

Spot Welder

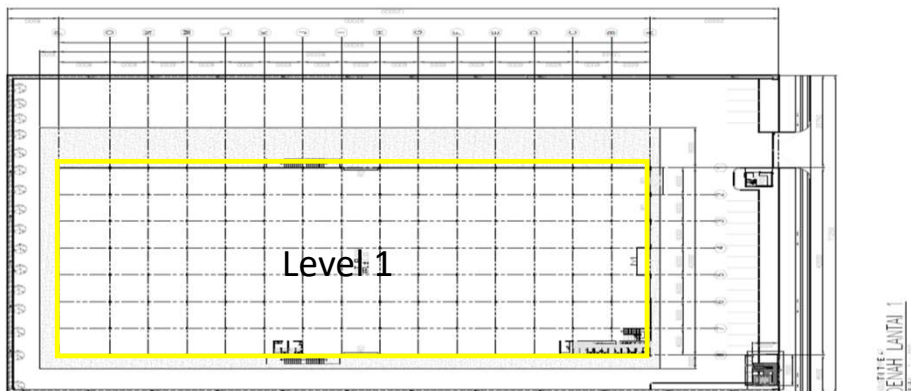

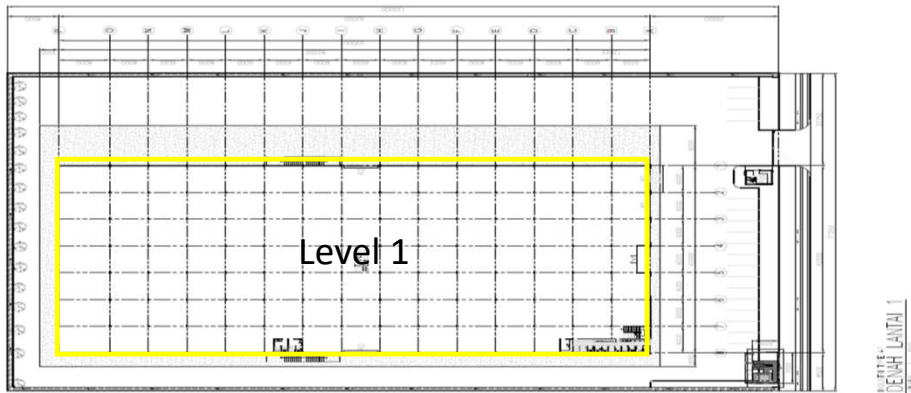

Assembly Station

A10 Layout (Portable Power Product ~Material Warehouse)

G3 & G3A Layout (Prepare For New Production Line)

Main Customers

Consumer Electronics	Medical	Automotive	New Energy	Others
